### Target Participants

The target participants of the site visit will be limited to the current member of HKIPM only as a special event exclusively for them.

### Project Highlights

As the extension of the existing Kwun Tong Line, the alignment of Kwun Tung Line Extension will run from Yau Ma Tei to Whampoa with one intermediate station at Ho Man Tin.

Extending from the existing overrun tunnel of Yau Ma Tei Station, the line will run along Gascoigne Road cross Wylie Road and reach Ho Man Tin Station at the site of the ex-Valley Road Estate. It will then run through Chatham Road North via Wuhu Street and Tak Man Street, and extend to Whampoa Station at Tak On Street.

Located at the ex-Valley Road Estate site, the Ho Man Tin Station will be an interchange station between the Kwun Tong Line Extension and the Shatin to Central Link (SCL). Kwun Tong Line passengers heading towards the New Territories will be able to interchange at this station for the SCL, or go to Hong Kong Island by interchanging at Hung Hom Station.

The site visit covers the Ho Man Tin Station box construction, as well as tunnel and cavern construction in between Ho Man Tin Station and Whampoa Station.
