Forum Introduction		

	Hong Kong's private building stock is aging rapidly, bringing the critical challenges of building safety and sustainable maintenance to the forefront of the society. Overcoming these legal, technical and management hurdles requires collective effort – a unified, cross-disciplinary breakthrough. For the first time, 7 leading professional institutes and academic institutions are joining forces alongside key supporting organizations for this landmark cross-disciplinary hybrid forum. Hosting 300 face-to-face delegates on the PolyU campus and broadcasting to over 3,000 professionals online, this forum serves as a high-level platform for industry leaders to share strategic insights, tackle regulatory bottlenecks and collaborate on constructive solutions for Hong Kong's private building repair works. <u>Key Highlights</u> ▪ Massive industry synergy: co-organized by 7 major professional and academic institutions, uniting surveying, engineering, construction, safety, property management and academia. ▪ Expert panel discussion: 中 ed by prominent industry figures sharing strategic insights on current bottlenecks, statutory requirements, site supervision and property management, while exploring the way forward for building repair works. ▪ Strategic insights: a deep dive into the planning and execution strategies of building repair, exploring available funding schemes and latest technical standards.
Remarks	• Prior online registration is required. Walk-in registration will not be entertained.
